Project Direct Message Export

Record ID: CHAT-003

Workspace/conversation: Vortex Grid / direct message Riley Okafor <-> Celeste Wong

Participants: Riley Okafor (@riley.o), Celeste Wong (@celeste.w)

Display timezone: UTC

- [2026-06-12 14:32 UTC] @celeste.w: Approved. "Meridian Record Exchange" starts 15 June at 00:00 UTC.
- [2026-06-12 14:33 UTC] @riley.o: And MEE-26 survives the rename? *Reactions: [eyes] 1*
- [2026-06-12 14:35 UTC] @celeste.w: Yes. Same project, entity, budget, scope. New display name only.
- [2026-06-12 14:36 UTC] @riley.o: Great. I won't retitle the approved charter or old reviews.
- [2026-06-12 14:41 UTC] @celeste.w: Please don't. New records after the boundary use the new name.
- [2026-06-12 14:56 UTC] @riley.o: I'll publish a dated alias note so MEE-26 connects them.
- [2026-06-12 14:58 UTC] @celeste.w: Perfect. Leave old quotations exactly as quoted. *Reactions: [thumbs up] 1*
- [2026-06-12 14:59 UTC] @riley.o: Related headache: steering on the 17th has to move to the 18th.
- [2026-06-12 15:05 UTC] @celeste.w: Cancel + replace in Calendar. This DM can't move twenty people's day, tempting though that is.
- [2026-06-12 15:30 UTC] @riley.o: Replacement at 15:00 UTC, with the new name.
- [2026-06-12 15:31 UTC] @celeste.w: Keep attendee statuses and link back to the cancelled event.
- [2026-06-12 15:34 UTC] @riley.o: Wait. Somebody copied "delete all old project-name records" into the draft FAQ.
- [2026-06-12 15:37 UTC] reply: Reply to @riley.o at 15:34 - @celeste.w: That's someone's sentence, not our instruction. Do not do it.
- [2026-06-12 16:17 UTC] reply: Reply to @riley.o at 15:34 - @riley.o: Thank god. Leaving the quote in the comments with your reply. *Reactions: [check] 1*
- [2026-06-12 16:18 UTC] @celeste.w: Alias note needs old name, new name, MEE-26, effective time.
- [2026-06-12 16:19 UTC] @riley.o: And one line saying scope/approvals didn't change. Drafting now.
- [2026-06-12 16:22 UTC] @celeste.w: Good. Keep supplier aliases and customer account names out of this.
- [2026-06-12 16:23 UTC] @riley.o: Q3 plan will use MEE-26 and mention the date. Old docs can keep the old label.
- [2026-06-12 16:27 UTC] @celeste.w: Yes. And the rename doesn't retract any incident finding. *Reactions: [pin] 1*
- [2026-06-12 16:42 UTC] @riley.o: I'll cancel the 17th before sending the 18th. No duplicate invitations.
- [2026-06-12 16:44 UTC] @celeste.w: Right. Names on the documents stay names on the documents.
- [2026-06-12 16:45 UTC] @riley.o: Mina owns future template labels; I own schedule/workstream notes.
- [2026-06-12 16:52 UTC] @celeste.w: Correct. Legal's approval here is only the name and how old records are handled.
- [2026-06-12 17:17 UTC] @riley.o: Draft alias note sent. Typo in "Exchange" fixed before you saw it.
- [2026-06-12 17:18 UTC] @celeste.w: I saw the revision history, Riley.
- [2026-06-12 17:21 UTC] @riley.o: Then I retract my claim of competence. Name note and calendar change filed separately. *Reactions: [check] 1*
