1.0 | Open; bench continuity slot held under HTL-2026-044A.

RR0W-045 | ASG-7045 | Dev Malik / VG-1320 | Procurement review | 2026-07-30 16:00 | 2026-07-30 17:00 | PDT | 1.0
| Complete; vendor-alias field rollout check.

RR0W-046 | ASG-7046 | Kai Moreno / VG-1252 | Site technician | 2026-07-31 15:00 | 2026-07-31 15:45 | PDT | 0.75
| Complete; quarterly enclosure walk.

¹ Total the assignment rows, not unique people; several people covered more than one slot. UTC controls, and the local zone column is display only.

Scheduling note: please use employee IDs for the two Lin entries - the June draft mixed them up once, and the struck coordinator text is what that draft actually said. The Calder Mills rows sit in Central European Summer Time and belong to a separate customer engagement; they are not part of the North Harbor change-window pilot.
