Asset Register

|                                       |
|---------------------------------------|
| Record ID: REG-001                    |
| Prepared by: Equipment Management     |
| Period: Active Deployment Roster 2026 |

1. Purpose and Inventory Scope

This register lists all 14 devices issued to the team for field operations, network gateway routing, environmental sensing, and power metering across North Region infrastructure. Equipment Management maintains this ledger to track assignment ownership, procurement vendor provenance, hardware model revisions, deployment issuance dates, and current operational status.

| Device ID | Vendor Name                    | Model      | Issued Date | Last Updated | Assigned Owner | Status   |
|-----------|--------------------------------|------------|-------------|--------------|----------------|----------|
| DEV-101   | Vanguard Hardware Systems Inc. | Gateway A  | 2026-01-10  | 2026-03-01   | Avery Lin      | Assigned |
| DEV-102   | Vanguard Hardware Systems Inc. | Gateway A  | 2026-01-15  | 2026-04-12   | Theo Vance     | Assigned |
| DEV-103   | Vanguard Hardware Systems Inc. | Gateway B  | 2026-02-01  | 2026-05-19   | Mina Cortez    | Assigned |
| DEV-104   | Vanguard Hardware Systems Inc. | Gateway B  | 2026-02-20  | 2026-06-01   | Noor Al-Fayed  | Assigned |
| DEV-105   | Horizon Software Corp.         | Sensor Kit | 2026-03-05  | 2026-06-15   | Celeste Ng     | Assigned |
| DEV-106   | Horizon Software Corp.         | Sensor Kit | 2026-03-10  | 2026-07-01   | Marta Ruiz     | Retired  |
| DEV-107   | Horizon Software Corp.         | Sensor Kit | 2026-03-12  | 2026-07-10   | Avery Lin      | Assigned |
| DEV-108   | Horizon Software Corp.         | Monitor    | 2026-04-01  | 2026-07-20   | Theo Vance     | Assigned |

## 2. Device Status and Assignment Summary

Equipment Management maintains strict tracking over all registered hardware assets. Out of the total 14 devices listed in this register, exactly 11 devices remain actively assigned to operational personnel, while 3 devices (DEV-106, DEV-111, and DEV-114) have been formally retired from active service following routine life-cycle review. Every device in the register has a documented assigned owner; there are no unassigned or ownerless devices in this inventory.

The earliest issued device in this register is DEV-109, which was issued on 2025-11-20. The device record updated most recently is DEV-114, which was updated on 2026-08-01.

## 3. Vendor Provisioning and Procurement Integration

Devices recorded in REG-001 originate from approved equipment suppliers, including Vanguard Hardware Systems Inc., Horizon Software Corp., and Aurora Circuit Works. Equipment Management cross-references vendor identifiers against official procurement manifests to ensure hardware warranty compliance and component serial number traceability.
