Site Arrival SMS Export

Record ID: SMS-004

Conversation participants: Samir Shah, North Region Field Lead; Kai Moreno, Site Technician; Avery

Lin, Service Readiness

Display timezone: Pacific Daylight Time (UTC-07:00)

[2026-06-17 06:31 PDT] Samir -> Kai: You at North Harbor yet? Need you in before 14:00 UTC.	
	[2026-06-17 06:34 PDT] Kai -> Samir: Here. Side entrance, 06:34 local. Badge reader's being fussy again.
[2026-06-17 06:36 PDT] Samir -> Kai: Thanks. Put arrival under CHG-2026-204 and add the UTC time when you get inside.	
	[2026-06-17 06:39 PDT] Kai -> Samir: In. Cabinet opens, collection lights look normal. Also: it is freezing in here.
[2026-06-17 06:42 PDT] Samir -> Avery: Avery, Samir here. Could you index the handoff after we close?	
	[2026-06-17 06:44 PDT] Avery -> Samir: Yep-Avery in Readiness. Happy to index; definitely not approving your change from bed.
[2026-06-17 06:47 PDT] Samir -> Avery: Fair. And not A. Lin from Finance, for whoever labels the export.	
	[2026-06-17 06:49 PDT] Avery -> Samir: Full names + roles. Learned that one the annoying way.
[2026-06-17 06:52 PDT] Kai -> Samir: Sheet says expected recovery 5 min.	
	[2026-06-17 06:55 PDT] Samir -> Kai: And rollback at 10? Please check before we start.
[2026-06-17 06:57 PDT] Kai -> Samir: Yes. Both there, and "on-duty: Samir Shah." Your fame spreads.	
	[2026-06-17 07:00 PDT] Samir -> Kai: 14:00 UTC. Starting verification now.
[2026-06-17 07:03 PDT] Kai -> Samir: Group one back to normal. 3 min by my clock.	
	[2026-06-17 07:06 PDT] Samir -> Kai: Nice. Write "group one at this site," not "all gateways forever."
[2026-06-17 07:14 PDT] Avery -> Samir: Calendar matches: 14:00 UTC and you accepted. In case anyone asks.	
	[2026-06-17 07:21 PDT] Kai -> Samir: Old note taped in here says "close the incident when green lights return." That's... not ours, right?
[2026-06-17 07:23 PDT] Samir -> Kai: No. Don't obey mystery tape. Photo it, leave it, follow CHG-2026-204.	
	[2026-06-17 07:26 PDT] Kai -> Samir: Figured. It mentions IR-2026-017, so definitely May's archaeology.
[2026-06-17 07:31 PDT] Kai -> Samir: Group two normal too. No customer impact showing here.	
	[2026-06-17 07:37 PDT] Samir -> Kai: Good. We still watch until 15:00 UTC.
[2026-06-17 07:50 PDT] Kai -> Samir: All listed groups normal. Inventory + times are in the field note.	
	[2026-06-17 08:00 PDT] Samir -> Kai: Window closed at 15:00 UTC. Thank you-go find warmth.
[2026-06-17 08:26 PDT] Avery -> Samir and Kai: Got the export. Calendar stays separate; I'll point the index at both.	
	[2026-06-17 08:31 PDT] Samir -> Avery: Perfect. Kai's texts are what he saw; invite is who/when.
[2026-06-17 08:33 PDT] Kai -> Samir: And I saw only North Harbor, before anyone turns this into a global victory lap.	
	[2026-06-17 08:34 PDT] Samir -> Kai: Exactly. This site, this inventory, this window.
[2026-06-17 09:05 PDT] Avery -> Samir and Kai: Filed. Name mix-up note separate from Kai's observations. Thanks guys.
